

Suggested Schedule for K-2 students

Our goal for the following information is not to replace the instruction that your student would receive if they were in the classroom with their teachers and peers. The intent is to provide a suggested structure and resources for families to help students continue to learn and grow during this time and maintain their skills.

Subject	Suggested activities/experiences
On line resources	<p>If you have online access, there is an extensive list of online resources that can be used for your child.</p> <p>Two sites that include multiple subjects and grade levels are:</p> <ul style="list-style-type: none"> ▪ scholastic.com/learnathome ▪ https://www.common sense media.org/lists/educational-websites
Reading 30 minutes	<p>Students at this grade level should be read to and read independently for a combined 20 to 30 minutes daily. Practice with sight words will build skills. Discuss with your children what their books are about or what they have learned. Students could act out books or stories to show their understanding.</p>
Math 30-40 minutes	<p>Students can practice basic addition and subtraction facts, counting objects, and playing games that use these skills.</p> <p>Involving your students in meal preparation with a focus on measurement and fractional understanding would be a valuable use of time.</p>
Science 20 minutes	<p>Have students make collections of objects that can be sorted and identified. Have them write about:</p> <ul style="list-style-type: none"> • what makes this is a collection? • what is the same, what is different about the objects? • what makes the collection interesting? <p>Recommended activities include weighing objects and playing with water – pouring it in and out of different size containers to build understanding of volume along with building a telephone out of cups and string, making play dough, flying kites, observing the night skies and constructing with blocks.</p>
Writing 30 minutes	<p>Write or dictate to parent/caretaker daily in a journal (loose paper can work) date the entries and share activities done.</p> <p>Write letters/cards to their friends and family.</p> <p>Create how to lists or schedules for their daily activities.</p> <p>When writing children should practice neat handwriting, correct usage of spacing, and the proper use of capitalization and punctuation.</p>
P.E/Art/Music/Tech 20 minutes each	<p>Students should have opportunities to play outside or engage in physical activities on a daily basis such as running, dancing, playing games such as tag or goose, goose, duck.</p> <p>Practice proper typing skills.</p> <p>Art/Music activities could include coloring, painting, drawing and listening to music, singing songs, and playing instruments (which could be banging on pots and pans).</p>
iReady Note	<p>K-2 resources that students iReady logins are being sent home so that they can access reading and math practice lessons.</p>
